WORK EXPERIENCE

PHILIPPINE STATISTICS AUTHORITY (PSA)
Information Analyst I

Quezon City, Metro Manila - Onsite
Mar 2021 - Nov 2021

- Developed an innovative online science quiz bee system using CodeIgniter 4, enabling seamless score checking and real-time monitoring of Wi-Fi latency to ensure a smooth quiz experience.
- Spearheaded the transition from manual to digitalized survey forms for the Family Income and Expenditure Survey (FIES), optimizing data collection processes and increasing survey completion rates by 50%.

DOST- PCIEERD
Information Analyst II

Taguig City, NCR - Remote
Nov 2021 - Nov 2022

- Enhanced the Project Management System of DOST PCIEERD using Laravel, automating the approval process for project expenses and reducing processing time by 60%.
- Implemented robust tracking mechanisms to monitor project timelines, ensuring projects adhere to expected deadlines with a 90% accuracy rate.
- Optimized search functionalities to efficiently handle over 1000 approved projects, reducing search time by 70% and enhancing user experience.

CLOUTECH ERP
Technical Consultant

Makati, Metro Manila - Hybrid
Oct 2022 - Oct 2023

- Leveraged NetSuite SuiteScript 1 and 2 to develop custom features, including templated check printing for clients' invoices and accounts receivables, increasing efficiency by 50%.
- Acted as a liaison between technical and non-technical stakeholders, effectively communicating client requirements and ensuring alignment between business needs and technical solutions.

COREPROC INC.
Fullstack Developer

Taguig City, NCR - Remote
Feb 2024 - Present

- Engineered monthly performance reports for wholesalers, leveraging Laravel for backend processing and Inertia.js/Vue.js for frontend presentation, enhancing data visibility and empowering client decision-making.
- Analyzed and refined user stories, proposing strategic enhancements to streamline processes and optimize user satisfaction, showcasing strong analytical skills and client-centric approach.

Freelance Experience

PHILIPPINE CHRISTIAN UNIVERSITY
QR Code Attendance & Online Student Guidance Form
Jr. Web Developer

Dasmariñas, Cavite - Contractual
Nov 2020 - Mar 2021

- Developed Laravel-based system: Created an efficient online student guidance system using Laravel 8, facilitating easy information input and streamlined employee QR code attendance tracking.
- Implemented an employee QR code attendance feature, enhancing attendance tracking accuracy by 30% especially in pandemic times.

DINOLAND
Dinoland Management System (DMS)
Fullstack Developer

Makati, Metro Manila - Contractual
Oct 2023 - Feb 2024

- Designed and developed a comprehensive ticket management system utilizing Laravel for robust backend functionality and jQuery for dynamic frontend interfaces, ensuring seamless user interaction and efficient data processing.
- Implemented advanced monitoring features to track ticket status, revenue report generation, purchase orders, and user actions, enhancing operational transparency and facilitating informed decision-making processes.
